Medium voltage

Tariff 1

Energy fee	€11,76/MWh
Basic fee	€480,37/month
Power fee	€1,55/kW,month
Reactive power fee	€4,76/kvar,month

Tariff 2

Energy fee	€8,40/MWh
Basic fee	€8691,38 /month
Power fee	€1,55/kW,month
Reactive power fee	€4,76/kvar,month

The billable power in both tariffs is determined based on the average of the two highest one-hour average power measurements during the winter season (1 November to 31 March) over the last 12 months. Of the reactive power, 0.16 kVAr is free of charge for each measured 1 kW of active power per month.

High voltage

Prices VAT 0%

Winter time	€12,60/MWh
Other time	€6,30/MWh
Basic fee	€475,65/month
Power fee	€840/MW,month
Energy fee, output	€0,70/MWh
Reactive power fee, input/output	€1,00/kvar,month
Reactive energy, input/output	0,50 cents/kvarh

The billable active power is determined based on the highest single hour measured during the last 12 months. Reactive power charges are calculated based on the highest reactive powers measured during the month, minus the reactive power allowance. The reactive power allowances are 16% in the reactive power input and 4% in the reactive power output of the active power peak measured during the same month. Winter period refers to the winter weekday period from December to February (1 December to 28 February) between 7 a.m. and 9 p.m., as defined by Fingrid Oyj.
